Improve
Our
Quality
of Life**

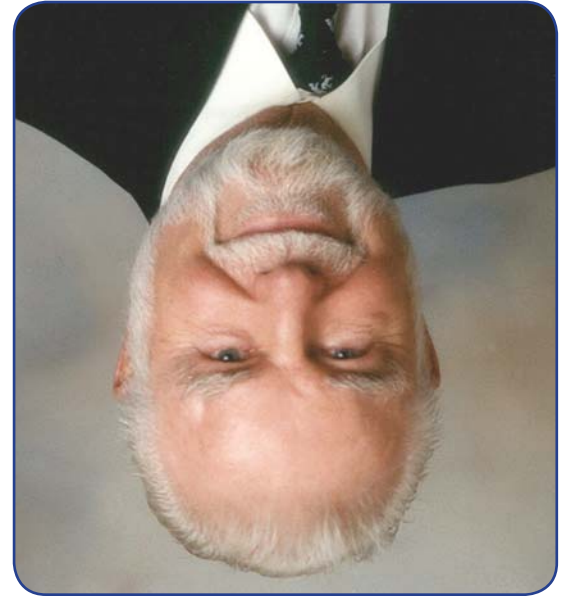

HARRY MORTENSON
Nevada State Senate District 11
Democrat

*Paid for by the Harry Mortenson Campaign
3930 El Camino Road
Las Vegas, NV 89103-2221*

Nevada has some of the worst consumer and citizen protection laws in the nation. Our education system is rated very low. Many of our "people indexes" are lowest in the nation. I have worked to change that, and, while some progress has been made, we still have a long way to go. If you will vote to return me to the Legislature as your Democratic representative in Nevada State Senate District 11, I pledge to support your best interests and continue my fight for citizen protection and improvements to our quality of life in this great state.

During my 14 years in the State Assembly, my motto has been "Working to Improve Our Quality of Life." With your help and support, I will continue that motto in the State Senate.

We Must Get Past the Housing & Foreclosure Crisis in Nevada.

I will work to protect citizens from improper foreclosure and encourage lenders to provide help to hurting homeowners, while supporting enforcement efforts against those who do not comply with existing law.

We Must Improve the Job Situation in Nevada.

I will work to get people back to work by diversifying the economy and encouraging the growth of small businesses, which generate 65% of net new jobs (SBA).

In a recent poll, District 11 voters preferred Harry Mortenson nearly 5 to 1.

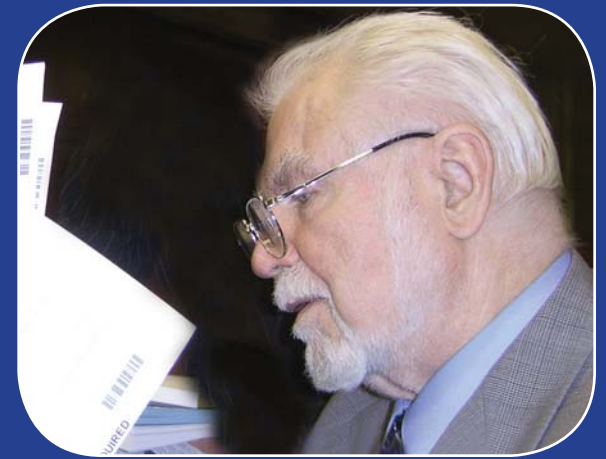

We Must Better Support Education & New Business Through A More Effective Tax System in Nevada.

I will work to put in place a state business income tax and to repeal regressive fees and band-aid taxes to prevent harm to new and growing business while also providing the additional funds needed to improve our childrens' educations.
