## Math Activities

With TeachingMadeEasier, you can create a variety of activities to help your students learn math words and concepts in [3 Easy Steps](#).

- Create classroom activities or homework materials in just minutes.
- Customize materials for different skill levels in your classroom.
- Use for kindergarten through 6th grade, as well as for some preschool and middle school materials.
- Choose from such activities as Word Scrambles, Word Searches, ABC Order, Morse Code and more.
- Create educational games you can play with your students, from Go Fish and Concentration to Bingo and Flash Cards.
- Input your own material or select from our large database organized by categories, which includes:

---

### Math

ALGEBRAIC OPERATION  
CLOCK  
COUNTING  
FRACTIONS  
GENERAL  
GEOMETRY  
GRAPHS  
MEASURE  
MEASUREMENT  
MONEY  
NUMBER SENSE  
OPERATIONS  
ORDINAL NUMBERS  
PATTERNS  
PLACE VALUE  
PROBABILITY  
SHAPES  
STATISTICS  
TIME

**THERE'S ALWAYS ROOM FOR MORE!** Want a particular word/picture category? Have a word list you think other teachers might benefit from using?

[Click here to send us your prepared lists and requests](#)

---

**For just \$36 a year, you can create UNLIMITED activities. That's just \$3 a month!**

Best of all, TeachingMadeEasier offers a **30-day money-back guarantee**. We guarantee that if you purchase the program and devote **10 MINUTES a week, for the first month of your membership**, you will create a range of customized activities that increase student interest and enthusiasm. If you don't find it a great time-saving tool that offers what you need for meeting your students' skill levels, simply let us know within 30 days and we'll refund your entire membership fee. It's a no-risk situation!
