

When's the last time you put in  
your two cents worth...

# and got so much back?

You made Line Guard a part of your phone service because you wanted to be protected from the unexpected cost of repairs. Since Line Guard covers damage from weather and sun exposure, animals, decorating slip-ups and normal wear and tear, you can always keep your phone wires and jacks in working order.

But now, Sprint/Central Telephone-Nevada is offering a lot *more* protection for just a little more money. Call today to sign up for Repair Plus,<sup>SM</sup> the most comprehensive phone line protection we have ever offered.

In addition to carrying over the benefits of Line Guard, Repair Plus offers you discounts when you rearrange your phone service to meet your changing needs. It also eliminates trip charges for repair visits, even when the problem is in your phone equipment. And, best of all, it only costs around two cents more a day than Line Guard.

Don't get hit with the unexpected cost of repair trips or spend more than you need to on new jacks and wiring - increase your protection with Repair Plus. Call by December 31, 1995, and we'll upgrade you for **FREE** by waiving the normal \$12.50 service change charge.
